

ZyVersa Therapeutics' CEO, Stephen C. Glover to Participate in a Panel Discussion Titled "Inflammation Illuminated," at Benzinga's Virtual Healthcare Summit 2024 on March 20, 2024

Mar 14, 2024

- According to the World Health Organization, 3 of 5 people worldwide die due to chronic inflammatory diseases, which are considered the most significant cause of death in the world.
- ZyVersa is developing Inflammasome ASC Inhibitor IC 100, which is designed to inhibit formation of multiple types of inflammasomes, including NLRP3, and their associated ASC specks to attenuate initiation and perpetuation of damaging inflammation associated with inflammatory diseases, including atherosclerosis, obesity and its associated metabolic conditions, multiple sclerosis, Parkinson's disease, and Alzheimer's diseases.

WESTON, Fla., March 14, 2024 (GLOBE NEWSWIRE) -- ZyVersa Therapeutics, Inc. (Nasdaq: ZVSA, or "ZyVersa"), a clinical stage specialty biopharmaceutical company developing first-in-class drugs for the treatment of inflammatory and renal diseases with high unmet medical needs, announces that Stephen C. Glover, Co-Founder, Chairman, Chief Executive Officer, and President, will participate in a panel discussion titled "Inflammation Illuminated," at Benzinga's Virtual Healthcare Summit 2024. During the discussion, Mr. Glover will talk about a protein complex discovered around 15 years ago, called inflammasome, and how it triggers the development and spread of damaging inflammation that is the culprit behind many of our most deadly diseases. He will also address new innovations in drug development to alleviate damaging inflammation.

Details regarding Mr. Glover's panel discussion are as follows:

Event: Benzinga's Virtual Healthcare Summit 2024
Date: Wednesday, March 20, 2024
Time: 1:30 to 2:00pm EDT
Registration: <https://www.benzinga.com/events/virtual-healthcare-summit-2024/>

About Inflammasome ASC Inhibitor IC 100

IC 100 is a novel humanized IgG4 monoclonal antibody that inhibits the inflammasome adaptor protein ASC. IC 100 was designed to attenuate both initiation and perpetuation of the inflammatory response. It does so by binding to a specific region of the ASC component of multiple types of inflammasomes, including NLRP1, NLRP3, and AIM2, to address inflammatory diseases in which multiple inflammasome pathways are activated. Intracellularly, IC 100 binds to ASC monomers, inhibiting inflammasome formation, thereby blocking activation of IL-1 β early in the inflammatory cascade. IC 100 also binds to ASC in ASC Specks, both intracellularly and extracellularly, further blocking activation of IL-1 β and the spread and perpetuation of the inflammatory response that is pathogenic in inflammatory diseases. Because active cytokines amplify adaptive immunity through various mechanisms, IC 100, by attenuating cytokine activation, also attenuates the adaptive immune response. To review a white paper summarizing the mechanism of action and preclinical data for IC 100, [Click Here](#).

About ZyVersa Therapeutics, Inc.

ZyVersa (Nasdaq: ZVSA) is a clinical stage specialty biopharmaceutical company leveraging advanced, proprietary technologies to develop first-in-class drugs for patients with renal and inflammatory diseases who have significant unmet medical needs. The Company is currently advancing a therapeutic development pipeline with multiple programs built around its two proprietary technologies – Cholesterol Efflux Mediator™ VAR 200 for treatment of kidney diseases, and Inflammasome ASC Inhibitor IC 100, targeting damaging inflammation associated with numerous CNS and peripheral inflammatory diseases. Cautionary Statement Regarding Forward-Looking Statements

Certain statements contained in this press release regarding matters that are not historical facts, are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. These include statements regarding management's intentions, plans, beliefs, expectations, or forecasts for the future, and, therefore, you are cautioned not to place undue reliance on them. No forward-looking statement can be guaranteed, and actual results may differ materially from those projected. ZyVersa Therapeutics, Inc ("ZyVersa") uses words such as "anticipates," "believes," "plans," "expects," "projects," "future," "intends," "may," "will," "should," "could," "estimates," "predicts," "potential," "continue," "guidance," and similar expressions to identify these forward-looking statements that are intended to be covered by the safe-harbor provisions. Such forward-looking statements are based on ZyVersa's expectations and involve risks and uncertainties; consequently, actual results may differ materially from those expressed or implied in the statements due to a number of factors, including ZyVersa's plans to develop and commercialize its product candidates, the timing of initiation of ZyVersa's planned preclinical and clinical trials; the timing of the availability of data from ZyVersa's preclinical and clinical trials; the timing of any planned investigational new drug application or new drug application; ZyVersa's plans to research, develop, and commercialize its current and future product candidates; the clinical utility, potential benefits and market acceptance of ZyVersa's product candidates; ZyVersa's commercialization, marketing and manufacturing capabilities and strategy; ZyVersa's ability to protect its intellectual property position; and ZyVersa's estimates regarding future revenue, expenses, capital requirements and need for additional financing.

New factors emerge from time-to-time, and it is not possible for ZyVersa to predict all such factors, nor can ZyVersa assess the impact of each such factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Forward-looking statements included in this press release are based on information available to ZyVersa as of the date of this press release. ZyVersa disclaims any obligation to update such forward-looking statements to reflect events or circumstances after the date of this press release, except as required by applicable law.

This press release does not constitute an offer to sell, or the solicitation of an offer to buy, any securities.
