(“ZyVersa”), a clinical stage specialty biopharmaceutical company leveraging advanced, proprietary technologies to develop product candidates that address unmet medical needs in the areas of renal and inflammatory diseases, and Larkspur Health Acquisition Corp. (NASDAQ: LSPR or “Larkspur”), a blank-check special purpose acquisition company, are pleased to announce that Larkspur has refiled with the U.S. Securities and Exchange Commission (the “SEC”) their proxy/registration statement on Form S-4 (the “Registration Statement”) in connection with the business combination agreement (the “Transaction”) between Larkspur and ZyVersa previously announced on July 20, 2022. Larkspur and ZyVersa are also pleased to announce commitments of approximately \$8.5 million, exceeding the previously announced \$7.0 million, contingent financing that provides for the purchase of Convertible Preferred Stock of Larkspur (the “**PIPE Investment**”). ZyVersa has also announced an additional closing of an interim finance round of approximately \$1.5 million from an offering of Series A Convertible Preferred Stock of ZyVersa that will convert into ZyVersa common stock in connection with the Transaction (the “**Bridge**”). The aggregate committed capital between the PIPE Investment and the Bridge is now \$10.0 million. Capital raised in the Bridge will support the advancement of research and development programs and ongoing ZyVersa operations and, along with funds from the PIPE Investment, will be used by the combined company following the Transaction for similar business purposes.

The PIPE Investment is anticipated to close simultaneously with the closing of the Transaction, which is expected to take place in the fourth quarter of 2022. Upon closing of the Transaction, Larkspur is expected to be renamed ZyVersa Therapeutics, Inc. and will continue to operate under the ZyVersa management team, led by Stephen C. Glover, Co-Founder, Chief Executive Officer, and Chairman of ZyVersa. The combined company’s common stock is anticipated to be listed on NASDAQ under ticker symbol “ZVSA.”

“We are grateful to our investors, including some who have been with us for many years, for their continued support and follow-on investments,” said ZyVersa’s CEO, Stephen C. Glover. “Their support will enable us to advance clinical evaluation of our cholesterol efflux mediator candidate (VAR 200) in patients with orphan renal disease, FSGS, and to progress our inflammasome ASC inhibitor candidate (IC 100) into Phase 1 trials. Patient targets for each of these product candidates have significant unmet medical needs that we believe our product candidates have potential to fulfill,” continued Mr. Glover.

“We appreciate the vote of confidence from our new PIPE investors,” stated Daniel J. O’Connor, Chairman and Chief Executive Officer of Larkspur. “Their support is a tribute to their belief in ZyVersa’s CEO, Mr. Stephen Glover, who has successfully co-founded and led multiple biopharma companies; the extensive scientific and operational experience of ZyVersa’s management team; and the potential of ZyVersa’s proprietary drug candidates, VAR 200 and IC 100, to help drive improved health outcomes in patients with serious renal or inflammatory diseases,” added Mr. O’Connor.
